

## Chicken Rota

- Wear wellies (not inside the school building).
- Chickens must be fed daily (regardless of the weather) and water container emptied then filled with clean water.
- Do NOT close the door that lets the hens into their nesting box.
- Collect all eggs and check the egg door is back in place securely.
- Check the fence is closed with clips to avoid the hens from escaping from the outdoor run.
- Gel hands before leaving the chicken coop (gel is attached to the run).
- Wash hands after giving the eggs to the office.
- Sign daily sheet.
